Fiscal Note Version – New

## **Description**

**House File 548** requires the Department of Public Health (DPH) and the University of Iowa College of Public Health to coordinate efforts to achieve continuous quality improvement in the care provided for persons who have suffered a stroke. The Bill requires the DPH to maintain a statewide stroke database that compiles information and statistics on stroke care, utilize a nationally recognized data set platform, coordinate with national voluntary health organizations to avoid duplication, and require nationally certified comprehensive stroke centers, primary stroke centers, acute stroke-ready hospitals, and Emergency Medical Services (EMS) providers to report data on the treatment of individuals who have suffered confirmed strokes. Data collected will be made available to the Iowa Stroke Task Force to identify evidence-based practices for stroke care and recovery efforts and produce measureable improvements in outcomes for persons who have suffered a stroke.

## **Assumptions**

- The DPH will need staff to administer and implement the quality improvement plan development, administrative rules development, data system changes, and data collection, monitoring, and technical assistance for all stroke centers, hospitals, EMS providers, and voluntary health organizations.
- The DPH will adapt to the existing EMS and Trauma System database to develop and modify the stroke data module to comply with the requirements in the Bill.

## **Fiscal Impact**

The Bill will increase DPH expenditures for implementation as presented in the table below.

<b>Estimated Impact of HF 548</b>		
	<b>FY 2018</b>	<b>FY 2019</b>
Executive Officer Salary	\$ 68,396	\$ 68,396
Staff and Program Support	14,115	9,836
Development/adaptation/maintenance of existing EMS/Trauma System for collection and reporting of data	52,500	10,000
<b>Grand Total</b>	<b>\$ 135,011</b>	<b>\$ 88,232</b>
